

7B FrozenLake – Multi-Turn Rollout

Turn 1:

State:

```
-----  
_P_  
OGO_  
-----
```

Model Output:

<think>Fill holes, then go target.</think>

<answer>Left || Up</answer>

Reward: +1.0 (due to slipping into goal)

Note: although the action was incorrect, the agent reached the goal due to stochastic slipping.
