

X Thought: To proceed with installing the autoDoctring extension in VS Code, I need to open the VS Code application. The VS Code icon is clearly visible on the left side of the screen, so the next step is to click on it to launch the application. Click on the VS Code icon in the left sidebar to open the application.

Action: click (start_box: [0.018, 0.186, 0.018, 0.186])

X Thought: To install the autoDoctring extension in VS Code, I need to access the extensions management interface. This can be done by clicking on the "Extensions" tab in the left sidebar, which will allow me to search for and install the desired extension. Click on the "Extensions" tab in the left sidebar to open the extensions management interface.

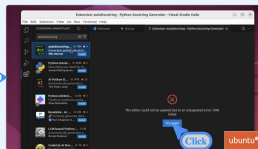

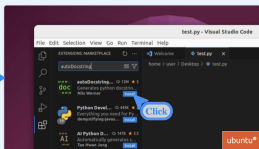

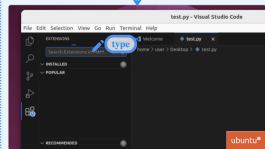

Action: click (start_box: [0.24, 0.306, 0.24, 0.306])

X Thought: To proceed with installing the autoDoctring extension, I need to access the extensions management interface. Since the "File" menu is already open, the next logical step is to click on the "Preferences" option, as it typically contains settings and extensions-related options in VS Code. Click on the "Preferences" option in the "File" menu to access settings and extensions management.

Action: click (start_box: [0.275, 0.72, 0.275, 0.72])

X Thought: To proceed with installing the autoDoctring extension, I need to access the extensions management interface. Since the "Preferences" menu is already open, the next logical step is to click on the "Extensions" option, as it will allow me to search for and install the desired extension. Click on the "Extensions" option in the "Preferences" menu to access the extensions management interface.

Action: click (start_box: [0.462, 0.767, 0.462, 0.767])

X Thought: To proceed with installing the autoDoctring extension, I need to search for it in the extensions management interface. The search bar is prominently displayed at the top of the "Extensions" section, so the next step is to type "autoDoctring" into the search bar to locate the extension. Type "autoDoctring" into the search bar in the "Extensions" section to search for the extension.

Action: type (content="autoDoctring")

X Thought: To proceed with installing the autoDoctring extension, I need to select it from the search results and initiate the installation process. The extension is clearly visible at the top of the list, so the next step is to click on the "Install" button next to it to begin the installation. Click on the "Install" button next to the autoDoctring extension in the search results to start the installation process.

Action: click (start_box: [0.342, 0.409, 0.342, 0.409])

X Thought: To proceed with installing the autoDoctring extension, I need to address the error that has occurred. The "Try Again" button is prominently displayed, and clicking it will likely retry the installation process, which is necessary to continue with the task. Click on the "Try Again" button to retry the installation of the autoDoctring

Action: click (start_box: [0.576, 0.713, 0.576, 0.713])

X Thought: To proceed with installing the autoDoctring extension, I need to initiate the installation process by clicking on the "Install" button. This action is necessary to complete the task of adding the extension to VS Code. Click on the "Install" button to start the installation of the autoDoctring extension.

Action: click (start_box: [0.528, 0.463, 0.528, 0.463])

X Thought: The task of installing the autoDoctring extension in VS Code has been successfully completed, as evidenced by the presence of the extension in the sidebar and its enabled status. There is no further action required to fulfill the task, and I can now confirm its completion. Submit the task as successfully completed, confirming that the autoDoctring extension has been installed in VS Code.
