

DBLP graph descriptions

There are three types of nodes in the graph: paper, author and venue. Paper nodes have features: title, abstract, keywords, lang, and year. Author nodes have features: name and organization. Venue nodes have features: name. Paper nodes are linked to their author nodes, venue nodes, reference nodes (the papers this paper cite) and cited by nodes (other papers which cite this paper). Author nodes are linked to their paper nodes. Venue nodes are linked to their paper nodes.
